

MOHAMED FAZIL

MERN Stack Developer | PHP Developer | DevOps (Docker)

fazil721655@gmail.com | 7200110489 | linkedin.com/in/mohamed-fazil-71720a371 | github.com/fazil7200110489-creator

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with hands-on expertise in MERN Stack (MongoDB, Express.js, React.js, Node.js), PHP backend development, and Docker-based containerization. Proven ability to design and deliver scalable, responsive, and production-ready web applications. Skilled in RESTful API design, JWT authentication, UI/UX implementation, and performance optimization. Passionate about clean architecture, modular code, and continuous learning.

EXPERIENCE

Trainee Developer

Inetcs | Present

Currently working as a Trainee Developer, contributing to real-world web development projects and gaining practical experience in full stack development.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js, PHP

Database: MongoDB, MySQL

DevOps & Tools: Docker, Git, GitHub, VS Code

Other: REST API Design, JWT Authentication, bcrypt, MVC Architecture, Responsive Design

PROJECTS

Agri 360 – Smart Agriculture Platform

| React.js, Bootstrap, Weather API

- Built a full-featured React.js agriculture marketplace enabling farmers to upload, edit, and manage produce listings.
- Integrated real-time Weather API displaying live temperature, rainfall, humidity, and wind speed to support farming decisions.
- Implemented advanced category filters, search functionality, pricing filters, and location-based suggestions for improved usability.
- Developed a farmer analytics dashboard tracking product reach, views, and user interactions with meaningful insights.
- Engineered reusable React components using Hooks and applied memoization for optimized rendering performance.
- Built a fully responsive UI using Bootstrap and custom CSS ensuring seamless experience across desktop and mobile devices.

LangMaster – Full Stack E-Learning Platform

| MERN Stack, JWT, Tailwind CSS

- Developed a comprehensive MERN stack e-learning platform featuring lessons, quizzes, progress tracking, and user dashboards.
- Built interactive lesson modules for HTML, CSS, JavaScript, Python, Java, and MongoDB with dynamic content rendering.
- Implemented secure user authentication using JWT, bcrypt password hashing, and protected route architecture.
- Added gamification features including quizzes, scoring system, rating model, learning streak, and percentage progress tracking.
- Designed and developed RESTful APIs for course creation, lesson delivery, quiz management, user progress, and certificate logic.
- Built an analytics dashboard visualizing completed chapters, pending tasks, and performance graphs for learners.
- Utilized MongoDB for persistent storage of users, course modules, quiz results, certificates, and learning data.
- Delivered a polished responsive UI using Tailwind CSS with accessible layouts, smooth animations, and clean components.

ATS Resume Scoring Engine

| PHP, Custom NLP Logic (No AI/ML Libraries)

- Built a fully custom Applicant Tracking System (ATS) resume scoring engine from scratch using PHP — without any AI or machine learning frameworks.
- Engineered a keyword extraction and matching algorithm that compares resume content against job descriptions to compute a relevance score.
- Achieved approximately 80% scoring accuracy through rule-based NLP techniques including tokenization, stop-word filtering, and weighted keyword matching.
- Developed section detection logic to identify and parse key resume segments such as Skills, Experience, Education, and Certifications.
- Implemented scoring output with detailed feedback highlighting matched and missing keywords to guide resume improvement.
- Designed the engine with a modular PHP architecture for easy extensibility, allowing new scoring rules and criteria to be added independently.

CERTIFICATIONS

- MERN Full Stack Development — SLA Institute (A Grade, 2025)
 - IBM JavaScript Essentials — IBM eTrain (2025)
 - Active Basic IT — NIIT Foundation (2025)
 - Spoken English Development — NIIT Foundation (2025)
-

EDUCATION

Bachelor of Computer Applications (BCA)

Dr. MGR Educational and Research Institute | 2025 | CGPA: 7.5

Higher Secondary Certificate (HSC)

KC Sankaralinga Nadar Hr. Sec. School | 2022 | 56%

Secondary School Leaving Certificate (SSLC)

KC Sankaralinga Nadar Hr. Sec. School | 2020 | 65%
