Professional Experience

Salesforce Developer — Rudhra Info Solutions
Chennai, India

Oct 2023 – Present

- Developed Salesforce features across Sales Cloud and Experience Cloud supporting internal business operations.
- Built Lightning Web Components and Lightning record pages to improve user productivity.
- Implemented Screen Flows and Record-Triggered Flows to automate business processes.
- Created bulkified Apex Classes and Triggers; implemented Batch and Scheduled Apex.
- Built Apex test classes ensuring deployment-ready code coverage.
- Supported REST integrations and collaborated with middleware teams.
- Participated in Git-based version control, Salesforce DX deployments, and CI/CD pipelines.
- Troubleshoot production issues, performed root-cause analysis, and delivered fixes.
- Documented technical designs and followed change control processes.
- Worked with stakeholders in Agile sprint cycles.

Salesforce Intern — Rudhra Info Solutions

Jan 2023 – Oct 2023

- Supported development in Apex, LWC, Flows, Salesforce security, and integrations.
- Built POCs and assisted in real-time implementations.

Key Projects

Partner Portal Enhancement (Experience Cloud)

- Developed customized Experience Cloud portal to improve engagement for wealth managers and partners.
- Built dynamic Lightning Web Components to display historical financial data using interactive charts.
- Implemented secure Apex REST callouts to fetch real-time data from external systems.
- Integrated Salesforce with third-party platforms via REST APIs for partner metrics.

- Customized Experience Cloud pages for responsive desktop and mobile experience.
- Ensured data security and compliance while handling sensitive client information.
- Participated in requirement gathering, technical design, and Agile sprint reviews.

Sales Cloud Automation – Powermech Engineering

- Customized Sales Cloud using custom objects, fields, page layouts, workflows, and approval processes.
- Built reports and dashboards providing real-time sales insights.
- Developed Apex Classes and Triggers for business automation.
- Implemented Quote PDF generation using Visualforce and automated email delivery.
- Created profiles and enforced object-level and field-level security.
- Developed test classes and managed deployments using Change Sets.

Certifications

- Salesforce Certified Platform Developer I
- Salesforce Certified Associate
- Copado Fundamentals I
- Salesforce AI Associate
- Agile Project Management
