Professional Summary

BCA Graduate (2025) and Full Stack Developer with hands-on experience building scalable web applications using MERN stack and PHP. Skilled in REST API development, JWT authentication, Docker-based deployment, and responsive UI design. Passionate about clean architecture, performance optimization, and production-ready systems.

Core Competencies

- **Languages:** JavaScript (ES6+), PHP
- **Frontend:** React.js, Next.js, AngularJS, HTML5, CSS3, Bootstrap, Tailwind CSS
- **Backend:** Node.js, Express.js, PHP
- **Databases:** MongoDB, MySQL
- **API & Security:** RESTful APIs, JWT Authentication, bcrypt, Middleware
- **DevOps & Tools:** Docker, Git, GitHub, VS Code
- **Concepts:** MVC Architecture, Responsive Design, Performance Optimization, Component-Based Architecture

Work Experience

Inet Secure Labs Pvt Ltd – Software Developer

Present

- Contributing to full stack development using MERN stack and PHP
- Building REST APIs and responsive UI components for real-world applications
- Working with Docker and Git for efficient development workflow

Featured Projects

LangMaster – Full Stack E-Learning Platform

- Developed a MERN-based platform with lessons, quizzes, and progress tracking
- Implemented JWT authentication, bcrypt password security, and protected routes
- Designed REST APIs for course and user management
- Built responsive UI using Tailwind CSS with animations

Agri 360 – Smart Agriculture Platform

- Built a React.js marketplace for farmers to manage product listings
- Integrated Weather API for real-time environmental insights
- Implemented advanced filtering, search, and location-based features
- Optimized performance using React Hooks and memoization

Resume Insight Analyzer

- Built a custom ATS scoring system using PHP with rule-based NLP logic
- Implemented keyword extraction, tokenization, and resume section analysis
- Generated detailed feedback for resume improvement

SafeSignal – Emergency Alert System

- Developed a real-time SOS alert system sharing user location to emergency contacts
- Implemented live tracking and notification system using APIs
- Built backend with Node.js and real-time communication features

PricePulse – Smart Price Tracking Platform

- Developed a price monitoring system tracking product prices across multiple platforms
- Implemented automated alerts for price drops using email notifications
- Optimized performance using caching techniques

Education

Dr. MGR Educational and Research Institute, Chennai	2025
• Bachelor of Computer Applications (BCA) — CGPA: 7.5	
Sankaralinga Nadar Hr. Sec. School	2022
• Higher Secondary Certificate (12th) — 58%	
Sankaralinga Nadar Hr. Sec. School	2020
• Secondary School Leaving Certificate (10th) — 60%	

Certifications

- MERN Full Stack Development — SLA Institute (2025)
- IBM JavaScript Essentials — IBM eTrain (2025)
- Active Basic IT — NIIT Foundation (2025)
- Spoken English Development — NIIT Foundation (2025)
